Description of Project and LEA's Preliminary Determination

The Big Bear Transfer Station is located on the southwest portion of the Big Bear Sanitary Landfill site. The facility is surrounded by National Forest Land in an unincorporated area of San Bernardino County. The site is approximately 2.5 miles from the City of Big Bear Lake and approximately 1.5 miles north of Baldwin Lake and State Highway 18. On August 8, 2008 the LEA received, from San Bernardino County, Solid Waste Management Division, a Solid Waste Facility Permit (SWFP) application package to amend the TPR to implement an odor impact minimization plan (OIMP). No other changes to the SWFP are under consideration at this time.

The LEA finds that the proposed change is consistent with all applicable certified and/or adopted CEQA documents, is consistent with State Minimum Standards, and does not conflict with the terms and conditions in the current solid waste facilities permit. The LEA approved the amendment on September 4, 2008.
